Custom Pages

404 Page

### **Available On-page airModules**

The available on-page airModules might only apply for specific page templates.

<b>Flights</b>
- Flight Search Panel
- Flight Search Lightbox
- Headline
- Featured Price airModule
- Campaign Module
- Hero Image (Images provided by Customer)

## **Other Product Configurations**

### **Fare Sources (Applicable across Verticals)**

<b>airTRFX System Scope</b>	<b>FareNet and Additional Sources of Pricing Data*</b>	<b>Static Content via Excel Uploads</b>
Full System	<b>X</b>	
Standard Pages	<b>X</b>	
Custom Pages	<b>X</b>	
Custom Pages Premium	<b>X</b>	
Basic		<b>X</b>

\* Scope of work and associated fees will be assessed if additional sources of fares need to be included and are available for consumption as per PROS requirements. Any additional source of fares will be implemented after initial product configuration and production release

### **Configuration for Initial Production Release (Applicable across Verticals)**

<b>airTRFX System Scope</b>	<b>Cabin Classes</b>	<b>Trip Types</b>	<b>No. of Languages</b>
-----------------------------	----------------------	-------------------	-------------------------

Full System	Economy	One way or Roundtrip or Combined	1 or 2
Standard Pages	Economy	One way or Roundtrip or Combined	1 or 2
Custom Pages	Economy	One way or Roundtrip or Combined	1 or 2
Custom Pages Premium	Economy	One way or Roundtrip or Combined	1 or 2
Basic	N.A.	N.A.	1 or 2

- Any subsequent languages, cabin class or trip type are subject to an additional monthly subscription fee by licensing Expansion Sets from Data Core products.
- Any subsequent languages will be delivered in sets of 2, every 6 to 8 weeks after initial product production release.

#### **Web Delivery (Applicable across Verticals and airTRFX System Scope)**

- airTRFX will be released to customer's production domain via Subdirectory or Subdomain.
- If subdirectory is selected, customer must have a Content Delivery Network (CDN) on which the reverse proxy rules will be set up for delivery of airTRFX to the customer website domain. Without a CDN on the customer website, this option is not technically feasible.
- If Subdomain, customer must delegate a subdomain to PROS. Any SSL Certificates and Subdomain creation costs will be covered by Customer
- Customer can migrate from any of these options (from Subdomain to Subdirectory or Subdirectory to Subdomain) at any point after initial production release. Feasibility, scope of work, timelines and associated fees will be assessed as per PROS requirements.

#### **API Integrations (Applicable across Verticals and airTRFX System Scope)**

- No API integrations will be included during initial product configuration and production release
- Any additional API will be charged separately and will be scheduled after initial product configuration and production release
- Feasibility, scope of work and timelines will be assessed based on the API to be integrated

#### **airTRFX Control Access (Applicable across Verticals and airTRFX System Scope)**

- Access to airTRFX Control (System Management Portal) with unlimited users

## Accessibility Compliance

PROS products are designed and developed in compliance with WCAG 2.0 - AA accessibility standards to ensure usability for all individuals, regardless of their abilities. This commitment to accessibility ensures that our products meet the needs of diverse users while adhering to recognized industry guidelines.

The **Web Content Accessibility Guidelines (WCAG)**, published by the **World Wide Web Consortium (W3C)** through the **Web Accessibility Initiative (WAI)**, provide a framework to make web content more accessible. These guidelines are designed to support individuals with disabilities, while also offering benefits to users on devices with limited capabilities, such as mobile phones.

WCAG 2.0 defines three levels of accessibility conformance:

- Level A (basic requirements)
- Level AA (intermediate)
- Level AAA (highest)

Higher levels of conformance automatically include compliance with lower levels.

Customers are responsible for ensuring proper color contrast of all components in accordance with the specified PROS Design System colors and fonts. PROS does not guarantee accessibility compliance for user-generated content, such as custom assets.

## Browser Compatibility

PROS will support browser compatibility of its products across browsers that, in aggregate, account for at least 99% of the traffic to the customer's instance of the products over the past twelve (12) months, reviewed annually.

PROS reserves the right to adjust supported browsers to maintain compatibility, adhering to the minimum threshold stated above.

Following the list of widely used and supported browsers:

- Google Chrome v90+
- Safari v16+
- Android Browser
- Firefox v15+
